410 / 281 / SAN PEDRO INTERCHANGE STUDY

OPEN HOUSE

OCTOBER 17, 2017
5:30 - 7:30 PM

CASTLE HILLS CITY HALL
209 LEMONWOOD DR.
CASTLE HILLS, TX 78213

OPEN HOUSE LOCATION: CASTLE HILLS CITY HALL

Please join us for an open house to learn about the I-410/US 281/San Pedro Avenue Feasibility Study. We will be sharing the proposed technically preferred alternative that addresses the needs and challenges in the study area. Stop by anytime from 5:30 - 7:30 PM to review study information, visit with study team members, and share your comments. Detailed designs have not been developed and no construction activities are planned at this time. If you are unable to attend the meeting in-person but would like to learn more about the study or submit a question or comment, please visit www.txdot.gov, keyword "I-410 – US 281 San Pedro."

The primary goal of this study is to improve traffic flow on I-410 and US 281 in San Antonio. Key study elements involve the following:

- Engage study area neighborhoods, businesses, transportation providers and the general public about transportation problems and possible solutions
- Analyze existing traffic conditions, model future conditions under a "do nothing" scenario to understand the needs and challenges, and model future conditions with various improvement options to identify possible solutions
- Document study methodology, findings and recommendations for future steps

If you plan to attend and have special communication and/or accommodation needs, please call Laura Lopez at (210) 615-5839 five business days before the open house.

The environmental review, consultation, and other actions required by applicable Federal environmental laws for this project are being, or have been, carried-out by TxDOT pursuant to 23 U.S.C. 327 and a Memorandum of Understanding dated December 16, 2014, and executed by FHWA and TxDOT.
